

HOW LONG DOES IT TAKE A BUSY RETAILER TO CASH UP?  
I SUPPOSE 15 MINUTES PER DRAWER?  
SO TWO DRAWERS, ABOUT 30 MINUTES?  
THAT COSTS (AT MINIMUM WAGE PER HOUR) ABOUT £3.15  
DON'T FORGET, SOME RETAILERS WITH PART TIME STAFF MAY CASH UP TWICE A DAY,  
WITH SHIFTS... SO HERE'S AN IDEA!

LIFT OUT COIN CUPS, SIMPLY TARE AN EMPTY CUP,  
THEN WEIGH EACH DENOMINATION CUP  
USING THE SCALE PICTURED BELOW, USING THE  
PRESET COIN BUTTON, THE ADD BUTTON THEN  
THE TOTAL BUTTON - THIS TAKES ABOUT 5 MINUTES,  
AND IT SHOULDN'T BE TOO MUCH  
HARDSHIP COUNTING NOTES.  
LOADING THE FLOAT IS DONE IN THE SAME WAY!
