QUORiON
Data Systems GmbH
# The CR21 is the ideal companion for mobile businesses and fiscal law compliance.

It offers you superior portability, fast transaction processing, loads of features and storage as well as ample connectivity options for external devices. The CR21 is easy to carry and small enough to fit into any backpack. The CR21 also comes with an internal battery, so that you can take your business anywhere you wish! Despite its petite size, you nonetheless gain a powerful POS solution, thanks to the 32-bit technology. Furthermore, the RS 232 interfaces allows you to connect all the peripheral devices you may need such as cash drawers, scales, scanners, and GPRS modules. The USB port in turn makes fast PC programming posible. Combine that with a quiet thermal printer with easy load that jets out up to 60 mm/s and you get a superior entry level cash register.

Made in Germany

CR21

2 line LCD operator display

Software

The CR21 is easy to program and use. It comes with the QMP Light Edition software, which we specifically designed, so you receive only the features you need in this segment and thereby guarantees a short learning curve. Though the CR21 is small, it nonetheless supplies 100 departments and 10,000 PLUs, giving you plenty of room to enter all the articles you wish to offer in your inventory. Further, you profit from a multitude of reports, which allow you to retrieve vital sales information in order to make decisive business decisions.

Interface:

2 x RS232 (RJ45)

1 x USB (PC)

1 x RJ 11 for 9V drawer
