

POSPOLE Kit – Base Pole & Verifone VX820 / P200 / P400

The **POSPOLE Kit** is a complete, ready-to-install mounting solution designed specifically for **Verifone VX820, P200, and P400 payment terminals**. It provides a secure, space-efficient, and professional setup ideal for retail, hospitality, and service environments.

Core Features

Complete Mounting Solution

Includes both the **POSPOLE base pole** and a **custom Verifone terminal mount**, providing a simple, all-in-one installation package for your payment device.

Secure & Stable Design

The **robust steel base pole** ensures a solid mounting foundation, keeping your payment terminal steady during everyday use.

Optimised for Verifone Devices

Precision-engineered to fit **Verifone VX820, P200, and P400** terminals securely, ensuring reliable operation and easy access for customers.

Space-Saving Setup

Compact design allows installation on countertops without taking up excess space—perfect for busy checkout areas.

Professional Appearance

Finished in **durable matte black**, providing a clean and coordinated look that complements any POS environment.
